Hello,

A link to the "Responsiveness Summary" is attached. You can find it online on regulations.gov, though it takes a little searching to locate.

Final rule is attached.

There is a very general summary of comments and responses in the final rule but it includes this reference to a responsiveness summary placed in the docket and local repositories listed in the final rule (I have not reviewed it yet):

"A responsiveness summary was prepared and placed in both the docket, EPA–HQ–SFUND–1999–0010, on [www.regulations.gov](http://www.regulations.gov), and in the local repositories listed above."

## Ex. 6 Personal Privacy (PP)

**Subject:** VB/I-70 Final Deletion Decision - OU1 Residential Properties

Hi everyone. Today, September 20, 2019, EPA announced the deletion of Operable Unit 1 (the residential portion) of the Vasquez Boulevard and I-70 Superfund site in Denver, Colorado, from the National Priorities List. EPA has determined, with concurrence of the State, that all appropriate response actions, other than operation, maintenance, and five-year reviews, have been completed. If you go to our website: [www.epa.gov/superfund/vb-i-70](http://www.epa.gov/superfund/vb-i-70)

You can go to the link that says: [View the Federal Register notice »](#). That will take you to the official EPA final deletion decision and to the supporting documents. The response to public comments is also on our website in the public documents section. I've also attached it here in case you are interested.
